A corrigendum on

Scene perception in posterior cortical atrophy: categorization, description and fixation patterns

by Shakespeare, T. J., Yong, K. X. X., Frost, C., Kim, L. G., Warrington, E. K., and

Crutch, S. J. (2013). *Front. Hum. Neurosci.* 7:621. doi: 10.3389/fnhum.2013.00621

The legend of **Figure 6** is labeled incorrectly. Contrary to the legend, the blue bars refer to “Age Matched Controls” and

the red bars refer to “PCA.” The results as described in the main text remain unchanged.

The corrected version of **Figure 6** is presented below:

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

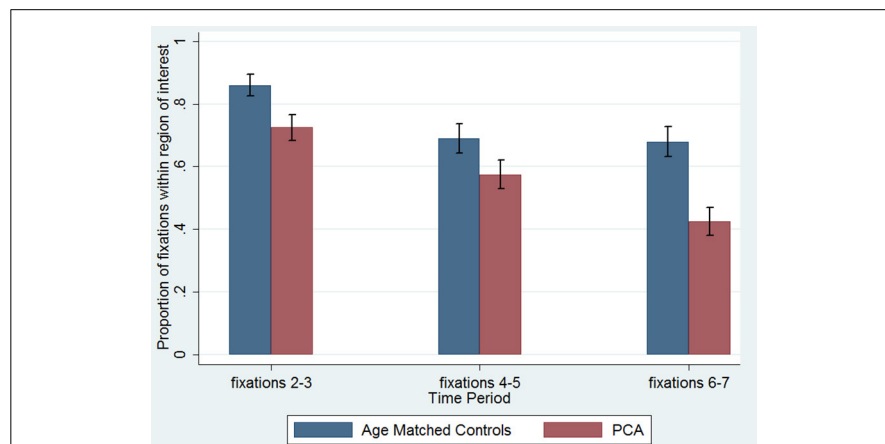

FIGURE 6 | Proportion of fixations inside the young control defined region of interest, by time period. The first fixation is omitted as it is predetermined by a central drift correction at the start of each trial. Error bars show standard error.
