SAGE Language Services is a manuscript editing service that can help authors ensure that their papers are written in a clear, professional manner. A variety of services are available so please [visit our site](#) to learn more about the options available to you. It is important that you note that SAGE Language Services is an editing service only, and using the service will in no way guarantee that your manuscript will be selected for peer review or accepted for publication. Manuscripts are reviewed based on the quality and appropriateness of a manuscript for the journal, and our editorial evaluation will not consider whether or not a manuscript has been edited through SAGE Language Services. Note: this link will NOT submit your paper to the journal. It opens a new window to the SAGE Language Services home page.
