Supplementary figure 2
(A) PF3D7_0401800:GFP (PFD80) expressed in *P. falciparum* Dd2. The left- and right-hand images show GFP localisation and a phase contrast image, respectively. Scale bar, 2 μm.

(B) Anti-GFP Western blot of *P. falciparum* Dd2 schizonts expressing PF3D7_0401800:GFP (PFD80)(lane 2). 2 x 10^6 schizonts were loaded per lane. Black arrow: expressed protein. Lane 1 contains untransfected *P. falciparum* Dd2 parasites.
