Acknowledgements

We are grateful to all research participants for their time and cooperation in making this research possible. We are also thankful for the involvement of our research partners including Janice Gibbons, Jan Hart and Colin Sumpter. This work was supported by the National Institute for Health Research (NIHR) School for Public Health Research (SPHR). These findings have been presented at the 2014 Lancet Public Health Science Conference. The views expressed are those of the authors and not necessarily those of the NHS, the NIHR or the Department of Health.
