Fig 2

Graph showing the probability that population screening for all Ashkenazi Jewish women is cost-effective in the UK, as a function of the willingness to pay threshold per quality adjusted life year (£/QALY), for different numbers of Ashkenazi Jewish grandparents (1, 2, 3, 4).
Fig 3

Probability that population screening for all Ashkenazi Jewish women is cost-effective in USA

Willingness to pay threshold per quality adjusted life year ($/QALY)

- 4 AJ grandparents
- 3 AJ grandparents
- 2 AJ grandparents
- 1 AJ grandparent
