

**Table 1: Summary of the main objectives defined in each series of data analyses and Optifood's modules used to reach them**

Series n <sup>o</sup>	Objectives	Modules
1	Test whether the NCFg <sup>1</sup> will ensure population level dietary adequacy for 12m old infants	I & III
2	Improve the NCFg by identifying the best FBRs <sup>2</sup> for the 12m old infants	I & II & III
3	Evaluate the extent to which fortified infant products will ensure population level dietary adequacy for 12-23 m old infants	I & III

<sup>1</sup> NCFg: New Complementary Feeding Guidelines

<sup>2</sup> FBRs: Food-based recommendations
