High Levels of Recombination among *Streptococcus pneumoniae* Isolates from the Gambia

E. S. Donkor, C. J. Bishop, K. A. Gould, J. Hinds, M. Antonio, B. Wren, and W. P. Hanage

Department of Infectious and Tropical Diseases, London School of Hygiene and Tropical Medicine, London, United Kingdom; Department of Infectious Disease Epidemiology, Imperial College London, London, United Kingdom; Bacterial Microarray Group, Division of Clinical Sciences, St. George's, University of London, London, United Kingdom; and Bacterial Diseases Programme, Medical Research Council Laboratories (United Kingdom), Fajara, the Gambia

* Present address: Department of Epidemiology, Harvard School of Public Health, Boston, Massachusetts, USA

Volume 2, no. 3, doi:10.1128/mBio.00040-11, 2011. The contributions of two additional authors, K. A. Gould and J. Hinds, who contributed to the microarray analysis, should have been included in the original publication. We apologize unreservedly for this oversight. The byline and affiliation line should appear as shown above.
