In the published version of the article, there were errors in the read accessions provided in Table S1, which are now fixed. The updated file (TableS1\_v2\_13March2023.csv) can be accessed on Figshare using the DOI: 10.6084/m9.figshare.19745608. Furthermore, we would like to correct the following sentence in the Data Summary section of the published version: 'Illumina reads have been deposited in the NCBI SRA, under the BioProject ID: PRJEB6891, and ONT reads (SUP basecalled) have been deposited under BioProject PRJNA646837.' The sentence should read: 'Illumina and ONT reads have been deposited in the NCBI SRA, under the BioProject IDs: PRJEB6891, PRJNA646837 and PRJNA351909.'

The authors apologise for any inconvenience caused by these errors.
